Projects

UI UX Designer. Ottiya

Designed the user interface and experience for Korean kids' language learning app. App based on learning language through puzzles. Tested the app with 1st grade kids in primary school.

UI UX Designer, Developer. CEW • Green transition

Designed a website for internship and job search within Green Transition and it's partners.
- User research - framing, interviews, quantitive research.
- Prototyping - low and high fidelity prototyping in Figma.
- Testing - concept and usability testing.
- Coding - front and back-end coding vacancies page.

Graphic Designer. Brandweer

- Created a style guide for a team of 3 graphic designers, working on our campaign for preventing wildfires in The Netherlands. The graphic style served for creating the campaign materials.
- Created a 3D figurine for the forest statue - part of our campaign concept.

UI UX Designer, Developer. Cargo Logistics

Website redesign for the company Cargo Logistics based in Bulgaria.
- UI UX prototyping and coding of the website
- Data visualisation
- Branding
